Pinot Blanc is a rarity in California, with only 425 acres planted across the entire state. Although our 6 acres is small in production, we deliver big on flavor!

Light straw in color with bright yellow hues, this lovely wine is fresh and complex at the same time. A balance of sweet fruit and crisp acids couple with distinctive floral and mineral notes, making this wine truly unique. It's a perfect companion to almost any sea-food dish, but it's enticing aroma and perfect balance make it a treat on it's own as well.
