

Demystifying Organic Wine Terms

100 % USDA ORGANIC CERTIFIED WINE

- No use of artificial fertilizers, pesticides or herbicides in the vineyard
- **No sulfites can be added** to the wine to use the USDA Organic claim. Only naturally occurring sulfites are present .

CCOF CERTIFIED “MADE WITH ORGANIC GRAPES” WINE

- No use of artificial fertilizers, pesticides or herbicides in the vineyard
- Added sulfites for preservation of the wine are allowed, but wine **cannot contain more than 100/parts per million of sulfites**

VEGAN FRIENDLY WINE

- No animal-derived products have been used in the winemaking process (egg whites, fish gelatins and other animal by-products are sometimes used as fining agents in conventional winemaking practices)
